## Picotech Huber AG Service

- **Close to our customers - in Switzerland and world-wide**
- **Serving the customer's needs**
- **Ensured machine efficiency - safe investment by Huber Service**

We offer the market an extensive program of innovative machines which excel by their economy and efficiency. We know that customer loyalty is not only built on superior product quality, but also on the motivation of a producer to offer life-long product assistance.

Our mission is not accomplished simply by selling products to the customer. We respond to our customers' problems, and also the right kind of after sales service that belongs to excellent machines. We offer the service which is required for a optimal long-term trouble free operation of our machines.

We are proud of having set up our HUBER Global Service which is at the disposal of our customers around the clock and around the world. This helps us to maintain the high quality level of both our products and performance that our customers expect.

We are not just content with supplying products alone, but also feel responsible for the operation, functionality and performance of our machines. We respond to our customers' problems, and also the right kind of after sales service that belongs to excellent machines. We offer the service which is required for a optimal long-term trouble free operation of our machines - during their whole product life cycle.

Before the sale, our technically skilled sales representatives together with our in-house specialists offer their expertise to our customers. Delivery, installation and start-up in Switzerland are generally performed by our well trained personnel.

Qualified personnel under an optimal management offer:

- **installation and start-up**
- **information and instruction of operating staff**

- **maintenance in regular intervals**
- **short-term repair and spare parts**

This comprehensive service provides you with safety for operating your plant, which is an important point for municipalities and industries. Supported by our service, yourself as well can better come up to your responsibility for reliable function of your plant.
