## Systems Concept for Organic Waste Processing

### The Systems Concept

- |   |   |
|---|---|
| 1 bio-waste bunker  | 12 <a href="#">HUBER Screw Press S-PRESS (RoS3)</a> - sludge dewatering     |
| 2 grease trap waste tank  | 13 <a href="#">HUBER Belt Dryer BT</a> - middle temperature drying          |
| 3 mill + metal recovery   | 14 biofilter  |
| 4 pulper  | 15 dried sludge silo  |
| 5 <a href="#">HUBER Complete Plant ROTAMAT® Ro5</a> - pre-treatment   | 16 heat supply to dryer   |
| 6 <a href="#">HUBER Screenings Wash Press WAP® SL</a> (super-laundry) | 17 wastewater tank with stainless steel <a href="#">HUBER Manhole Cover</a> |
| 7 <a href="#">HUBER Coanda Grit Washer RoSF4</a>                      | 18 chemicals dosing   |
| 8 <a href="#">HUBER Sludgcleaner STRAINPRESS®</a> - sludge screening  | 19 tubular reactor  |
| 9 anaerobic digester  | 20 <a href="#">HUBER Dissolved Air Flotation Plant HDF</a>                  |
| 10 gas holder and flare   | 21 process water tank   |
| 11 power / heat cogen.  | 22 flotated sludge  |
